Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,2,4,6,14,15,17,18,27,28,32,33,40,42,45,47 and 48.

DETAILED ACTION

Status of claims

1. Claims 1-2, 4, 6, 14-15, 17-18, 27-28, 32-33, 40, 42, 45 and 47-48 are restricted.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, 4, 6, 14-15, 17-18, 27-28 and 32, are drawn to a method of delivering one or more IRM compounds to a tissue in a subject wherein the IRM comprises soluble IRM-polymer complex.

Group II, claim(s) 33, 40, 42, 45 and 47-48, are drawn to a soluble IRM-polymer comprising one or more IRM compounds attached to an alkylene oxide-containing polymer.

3. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1, because under PCT Rule 13.2, they lack the same or corresponding special technical features, in which the first method is a method of delivering one or more IRM compounds to a tissue in a subject. However because US 2003/0139364 describes administering IRM compounds, such as TLR7, and because administering TLR8 reasonably meets the recited claim limitations, no special technical

Art Unit: 1618

feature exists for Group I as defined by PCT Rule 13.2, because it does not define a contribution over the prior art. In contrast, the claims of Group II are drawn to a soluble IRM-polymer products comprising one or more IRM compounds attached to an alkylene oxide-containing polymer.

Note that PCT Rule 13 does not provide for multiple products or methods within a single application. Because the technical feature of Group I is not a special technical feature, and because the technical features of the Group II invention is not present in the Group I claims, unity of invention is lacking.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of an invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHIRLEY V. GEMBEH whose telephone number is (571)272-8504. The examiner can normally be reached on 8:30 -5:00, Monday- Friday.
